NCAE Announces “Best Practices and Strategies to Avoid Common Pitfalls in Your Workers’ Compensation Program with H-2A Employees” Webinar

(Washington, DC) – The National Council of Agricultural Employers (NCAE) is pleased to announce the next installment of its educational webinar series, “Best Practices and Strategies to Avoid Common Pitfalls in Your Workers’ Compensation Program with H-2A Employees.”

“Workers’ compensation policies can be difficult to navigate, especially when trying to understand how they function for users of the H-2A temporary agricultural worker program,” said Nigel Bocanegra, Manager of Association Services for NCAE. “This webinar will unpack these complex programs for agricultural employers.”

The webinar will feature two speakers with the Zenith Insurance Company: Fred Martinez, Assistant Vice President and Ashli Sturgill, Senior Safety and Health Consultant.

Mr. Martinez and Ms. Sturgill will review the ways in which the rules governing the H-2A program and workers’ compensation interact. Attendees can expect to learn about best practices and common pitfalls to avoid. Topics will include returning to work, medical treatment, and safety measures to consider when developing your program.

**525 9th Street NW, Suite 800
Washington, DC 20004
202-629-9320**

The “Best Practices and Strategies to Avoid Common Pitfalls in Your Workers’ Compensation Program with H-2A Employees” webinar is scheduled for Thursday, May 13th at 2:00 pm EDT/11:00 am PDT. Registration will be limited to the first 100 participants. Participants will be eligible to receive one Professional Development Credit from the Society for Human Resource Management upon completion of the course.

Bocanegra noted, “Those interested in attending should register soon as this course is expected to fill quickly.”

Those interested in attending NCAE’s “Best Practices and Strategies to Avoid Common Pitfalls in Your Workers’ Compensation Program with H-2A Employees” webinar may register here: <http://www.ncaeonline.org/resources/webinars/>.
